

Clayton County Environmental Health Tourist Accommodations Program

Clayton County Board of Health Tourist Court Regulations

Section -.05 Water Supply. Amended.

- (1) The water supply shall comply with all Federal, State and local laws and/or ordinances related to safe drinking water.
- (2) Cold running water under pressure shall be provided to all equipment that uses water. Hot and cold running water under pressure shall be provided to all lavatories, bathing facilities, laundry facilities, and all water-using equipment where eating and drinking utensils are washed. In all new tourist accommodations and where possible in existing tourist accommodations, hot water in all guestrooms shall not exceed 120°F.
- (3) The water supply shall be adequately protected to preclude the possibility of back siphonage. Below grade stop and wastes cocks or hose bibs shall not be used.
- (4) Hose used for filling water tanks shall be stored under sanitary conditions, used for no other purposes and be so handled that back siphonage cannot occur and that contaminants will not be introduced into the trailer's water tank.
- (5) Where water glasses, ice buckets and other multi-use utensils are used, they shall be cleaned and sanitized, in a manner approved by the health authority, after each occupancy. Where approved sanitizing methods are not provided, single service paper or plastic cups shall be made available in lieu of glasses and shall be used only once. In lieu of sanitizing ice buckets, a sanitary, food grade, plastic bag, large enough to line the bucket and overlap the top edge may be provided for use by one occupancy only.
- (6) Single service items shall be commercially pre-wrapped to protect against contamination. Water glasses and other multi-use utensils shall be protected from contamination in a manner approved by the health authority. Equipment, utensils, dishes, etc. in kitchenettes provided for guest use, shall be kept clean. Dishwashing detergent shall be provided for guest use.
- (7) Drinking fountains shall be constructed of impervious material shall have an angle-jet nozzle above the overflow rim of the bowl. A non-oxidizing guard shall protect the nozzle and the bowl shall be constructed of an easily cleanable material.
- (8) Where self--service ice is provided, it shall be from a source-approved water supply. In all new tourist accommodations and in existing tourist accommodations machines are replaced, only automatic dispensing ice machines will be allowed. In existing tourist accommodations permitted prior to the adoption of this rule, self-service ice-storage bins presently being used may be continued, provided that the machines are maintained in good repair and capable of being properly cleaned. Scoops, ice buckets and other ice handling equipment shall be of

easily cleanable material and construction shall be stored in a clean place and shall be kept clean. Glassware shall not be used to scoop ice.
